

Supplier	
Cefetra Ltd The Lightyear Building Glasgow Airport Business Park Marchburn Drive PA3 2SJ Scotland 0141 445 5721	
Product Specifications	
Feed Stuff	Soyabean Oil
Trading Name	Soya Oil
Image- Typical Image of Soya oil**	
	
**(product may vary in appearance depending on suppliers)	
Product Description	A product obtained from the processing of soya beans, Oils and fats obtained from the soya beans may be degummed, refined and or hydrogenated
Specification*	<ul style="list-style-type: none"> Moisture Max : 0.5% Oil: 99.5% <p style="text-align: right;">(*Values are not contractual)</p>
General Use	Oils- highly palatable and used as a part of mix in animal feed materials.
Packaging & Transport	Containers
Labelling	According to EU legislation 767/2009
Storage	Liquid at 20°C. Prevent accidental release into sewage systems, water courses. In the case of heating apply FOSFA heating instructions to prevent product from thermal deterioration.
Legal Demands	<p>The product complies with all applicable legislation. Most important elements are:</p> <ul style="list-style-type: none"> Animal Feed Legislation Directive 2002/32/EG on undesirable substances in animal feed. Regulation 396/2005 on maximum residue levels of pesticides in or on food or feed Regulation (EC) No. 1831/2003 concerning animal feed hygiene Commission Recommendation- EC 2006/576/EC Where applicable The Animal Feed (Amendment) (EU Exit) Regulations Statutory Instruments (Scotland, England, Wales and Northern Ireland) Where applicable The Feed (Sampling and Analysis and Specified Undesirable substances) Regulations 2010. (SI for Scotland 354, Northern Ireland 323, Wales 2287 & England 2280)
Undesirable substances	<p>The maximum determined contents for undesirable substances in feedstuff, such as established in:</p> <ul style="list-style-type: none"> Directive 2002/32/EG on undesirable substances in animal feed; GMP+FSA; Appendix 1 (Product standards, including residue standards) recalculated to a moisture content of 12%;
Specific analysis and standard tolerances	
Salmonella	Absent in 25g
Appearance	Liquid at 20°C turbid, brownish (crude oil) to clear, pale yellowish (refined oil).
Odour	Characteristic (crude oil) to bland (refined oil).
Health Information	
Inhalation	Classified as a dust nuisance only. Inhalation may aggravate those with pre-existing conditions.
Ingestion	Non-hazardous food product. May cause an allergic response with sensitive individuals.
Eye Contact	Can cause discomfort.
Skin Contact	In certain individuals subject to Malady, dermatitis may occur and hence protective gloves would be advisable. The material is classified as non-toxic but as dust nuisance only. It is not a corrosive.
Toxicological Information	Rapeseed meal is non-toxic and biodegradable.
Occupational exposure limits	None available.

R7-04A

Product Data Sheet – Animal Feeds

Emergency first aid procedures	
Ingestion	Do not induce vomiting. Give person water to drink. If gastro-intestinal symptoms develop seek medical help. Non-toxic – dust masks should be worn.
Eye Contact	In the event of eye contact irrigate with water for at least 15 minutes. Exposure may result in mild irritation. Seek medical attention if symptoms persist.
Skin Contact	Wash contact areas with soap and water. Get medical attention promptly if symptoms occur.
Physical properties	
Physical state	Liquid, oil.
Appearance	Liquid at 20°C turbid, brownish (crude oil) to clear, pale yellowish (refined oil).
Viscosity	Approx 59 mPa*s at 20 °C.
Conditions to avoid	Don't heat above 270 °C at atmospheric pressure to prevent acrolein formation.
Materials to avoid	Don't bring into contact with strong oxidising agents.
Fire & Explosion hazard	
Flammability	BZ 2- Catches fire briefly and extinguishes rapidly.
Flash Point	>300 °C
Extinguishing media	Dry powder, sand.
Explosion class	Unknown
Special firefighting procedures & precautions	
Combustible when subjected to heat. Suitable extinguishing agents are dry agent or fire blanket. Fire fighters should use self-contained breathing apparatus to avoid exposure to smoke and fumes.	
Adequate extraction facilities should be provided in all areas subject to dust.	
Reactivity	
Stability	Stable
Hazardous Polymerization	Will not occur.
Hazardous decomposition products	Not Known.
Personal protection / Exposure control	
Respiratory Protection	Always ensure the work area has adequate ventilation. In case of dust formation, wear appropriate respiratory protective equipment determined and fitted by an expert. dust masks should be worn.
Skin protection	Gloves and overalls should be worn when handling.
Eye Protection	Always wear approved safety glasses when working. Full face protective shields can be worn to avoid contact with face. Wash stations should be provided.
Footwear	Appropriate footwear as specified by workplace requirements.
Environmental Protection	
Environmental precautions	Avoid discharge into sewage systems, water courses or onto the ground.
Spill or leak precautions	Dam up, absorb with inert material. Collect all soaked materials in suitable, closed containers as they may heat and spontaneously ignite, if exposed to air.
Waste disposal	Incineration in approved installations or other disposal in line with the applicable legislation.
This is for information purposes only and is not contractual
