

## Environmental Policy Statement

Cefetra Ltd (UK) is a supply chain manager for the Food, Feed and Fuels sectors. As a company, we believe we have a general duty of care to the environment. Our approach to business is undertaken by demonstrating a socially responsible approach and being diligent towards people and the environment from which we source material.

It is estimated that the world population growth will reach 8.6 billion by 2030 and the demands on the environment to produce food and feed will continue to grow. The requirement of stewardship of land and resources will necessitate innovation of products and production.

Cefetra Ltd promotes the protection of the environment in which we live and operate, and this is part of our key values and principles. We consider it to be a requirement to go beyond good practice and to actively work with our customers in encouraging sustainability and reducing their carbon footprint on the environment.

Care for the environment is one of our key responsibilities and an important part in the way in which the organisation operates.

In this policy statement Cefetra confirms commitment to:

- Complying with all relevant environmental legislation, regulations, and approved codes of practice;
- Protecting the environment by striving to prevent and minimise our contribution to pollution of land, air, and water;
- Seeking to keep all types of waste to a minimum and maximise the efficient use of materials and resources;
- Managing and disposing of all waste in a responsible manner;
- Providing appropriate training for our staff so that we all work in accordance with this policy and within an environmentally aware culture, including competency-based sustainability training rolled out across the company;
- Regularly communicating our environmental performance to our staff and other stakeholders;
- Developing our management processes to ensure that environmental factors are considered during planning and implementation;
- Monitoring and continuously improving our environmental performance;
- Innovation of products which will reduce the carbon footprint on the planet;
- Undertaking annual sustainability assessments – CDP as part of the BayWa Group and EcoVadis as Cefetra Ltd – to monitor our emissions and target areas for improvement;

The policy statement will be regularly reviewed and updated as necessary. The Management team endorses this policy statements and is fully committed to its implementation.
