Cefetra Ltd The Lightyear Building Glasgow Airport Business Park Marchburn Drive PA3 2SJ Scotland 0141 445 5721	
Product Specifications	
Feed Stuff	Feed Beans
Trading Name	Feeding Beans, Faba bean, Fava bean, Horse bean, Field bean, Broad bean, Bell bean, English bean.
Image- Typical Image of Feed beans **	
 <p style="text-align: right;">**(product may vary in appearance depending on suppliers)</p>	
Product Description	Faba bean (<i>Vicia faba</i> L.) is a legume crop grown primarily for its edible seeds (beans). Faba bean is a major legume seed consumed by humans worldwide. The seeds of some varieties are an important livestock feed.
Specification*	<ul style="list-style-type: none"> Moisture ~8-15% Protein ~20-26% Fibre ~ 5-10% <p style="text-align: right;">(*Values are not contractual)</p>
General Use	Feedstuff for all animal classes.
Packaging & Transport	Bulk
Labelling	According to EU legislation 767/2009
Storage	Dry, cool and dark storage and aerate regularly.
Legal Demands	<p>This product complies with applicable feed legislation and regulatory requirements. The main legal instruments considered include:</p> <ul style="list-style-type: none"> Directive 2002/32/EC on undesirable substances in animal feed (as amended). Regulation (EC) No. 396/2005 on maximum residue levels of pesticides in or on food and feed Regulation (EC) No. 1831/2003 concerning feed hygiene. Commission Recommendation 2006/576/EC, as amended by Commission Recommendation (EU) 2016/1319, on the presence of mycotoxins in animal feed. Where applicable, UK legislation, including: <ul style="list-style-type: none"> The Animal Feed (Amendment) (EU Exit) Regulations [Scotland, England, Wales, Northern Ireland]. The Feed (Sampling and Analysis and Specified Undesirable Substances) Regulations 2010 (SI 2010/354 for Scotland, SI 2010/323 for Northern Ireland, SI 2010/2287 for Wales, SI 2010/2280 for England).
Undesirable substances	<p>The product complies with the maximum allowable levels for undesirable substances in feed, as established by the following regulations and standards:</p> <ul style="list-style-type: none"> Directive 2002/32/EC on undesirable substances in animal feed GMP+ FSA, Appendix 1 – Product Standards (including residue limits) Regulation (EC) No. 396/2005 on maximum residue levels of pesticides in or on food and feed <p>These frameworks define the acceptable limits for contaminants to ensure feed safety and compliance with industry best practices</p>
Specific analysis and standard tolerances	

Salmonella	Absent in 25g
Appearance	Light green, white or yellow beans
Country of origin	UK and EU
Health Information	
Inhalation	May cause lung congestion if inhaled.
Ingestion	None – Not harmful if swallowed.
Eye Contact	In the event of eye contact irrigate with water for at least 15 minutes. Exposure may result in mild irritation. Direct eye contact may result in pain, redness and watering of the eyes. Seek medical attention if symptoms persist.
Skin Contact	Dust can cause irritation or sensitivity to skin. Gloves should be worn when handling.
Toxicological Information	Not available.
Occupational exposure limits	None available.
Emergency first aid procedures	
Ingestion	Do not induce vomiting. Give person water to drink. If gastro-intestinal symptoms develop seek medical help.
Eye Contact	In the event of eye contact irrigate with water for at least 15 minutes. Exposure may result in mild irritation. Seek medical attention if irritation Occurs.
Skin Contact	Wash effected area with soap and water. Seek medical attention if irritation develops.
Inhalation	Remove person to fresh air. Seek medical attention if symptoms develop.
Physical properties	
Physical state	Solid
Appearance	Light green/yellow
Odour	Should not smell Musky or Moldy
Fire & Explosion hazard	
Flash point	>400°C
Explosibility	ST 1
Flammability	Catches fire briefly and extinguishes rapidly, Local burning or glowing without spread (BZ-2 and BZ-3).
Extinguishing media	Foam, dry chemical, carbon dioxide – flames should be smothered.
Special firefighting procedures & precautions	
Suitable extinguishing agents include dry chemical agents, carbon dioxide (CO ₂), and foam. Firefighters should wear self-contained breathing apparatus (SCBA) to prevent exposure to potentially hazardous smoke and fumes. Warning: In the event of a fire, toxic gases such as hydrocarbons and carbon oxides may be released upon heating.	
Reactivity	
Stability	Stable
Hazardous Polymerization	Not known.
Material to avoid	Strong oxidizing agents, heat sources and moisture.
Hazardous decomposition products	Combustion produces CO ₂ , CO & thick smoke.
Personal protection / Exposure control	
Respiratory Protection	Always ensure the work area has adequate ventilation. In case of dust formation, wear appropriate respiratory protective equipment determined and fitted by an expert.
Skin protection	Gloves and overalls should be worn when handling.
Eye Protection	Approved safety glasses must be worn at all times during work activities. Where there is a risk of facial exposure, full-face protective shields are recommended to prevent contact with the face. Eye wash stations and hand-washing facilities should be readily available and accessible in the work area to ensure proper hygiene and emergency response capability.
Footwear	Appropriate footwear as specified by workplace requirements.
Environmental Protection	
Environmental precautions	Avoid excessive dust emissions.
