

Supplier	
Cefetra Ltd The Lightyear Building Glasgow Airport Business Park Marchburn Drive PA3 2SJ Scotland 0141 445 5721	
Product Specifications	
Feed Stuff	Organic Wheat Feed
Trading Name	Organic Wheat Feed, Organic Pollard
Image- Typical Image of Organic Wheat feed Pellets **	
 <p style="text-align: right;">**(product may vary in appearance depending on suppliers)</p>	
Product Description	Product of flour or malting manufacture obtained from screened grains of wheat or dehusked spelt. It consists principally of fragments of the outer skins and of particles of grain from which less of the endosperm has been removed than in wheat bran. When sourcing and trading organic products, it must be ensured that the organic supply remains compliant with the standards set out by OF&G.
Specification*	Protein ~13-16% Fibre ~10-11% Oil ~3-4% Moisture ~13-14% Calcium- ~0.08-0.01% <p style="text-align: right;">*(These Values are not contractual)</p>
General Use	Animal feed is ideal for ruminants, pig feed and horse feed. Highly digestible and has good palatability.
Packaging & Transport	Bulk
Labelling	According to EU legislation 767/2009
Storage	Wheat feed is stored in cool, dry conditions as it tends to go mouldy quickly and can develop strange flavour's.
Legal Demands	The product complies with all applicable legislation. Most important elements are: <ul style="list-style-type: none"> Animal feed hygiene legislation: 183/2005 Regulation 2018/848 on organic production and labelling of organic products and repealing EC No 834/2007 Regulation 889/2008 on organic labelling Directive 2002/32/EG on undesirable substances in animal feed. Regulation 396/2005 on maximum residue levels of pesticides in or on food or feed Regulation (EC) No. 183/2005 concerning animal feed hygiene Commission Recommendation- EC 2006/576/EC Where applicable The Animal Feed (Amendment) (EU Exit) Regulations Statutory Instruments (Scotland, England, Wales and Northern Ireland) Where applicable The Feed (Sampling and Analysis and Specified Undesirable substances) Regulations 2010. (SI for Scotland 354, Northern Ireland 323, Wales 2287 & England 2280)
Undesirable substances	The maximum permissible levels of undesirable substances in feedstuff are established in accordance with: <ul style="list-style-type: none"> Directive 2002/32/EC on undesirable substances in animal feed; GMP+FSA Appendix 1 (Product standards, including residue limits).

Product Data Sheet – Animal Feeds

Specific analysis and standard tolerances	
Salmonella	Absent in 25g.
Appearance	Light brown meal/ pellets.
Country of origin	EU, Africa, UK.
Health Information	
Inhalation	Classified as a dust nuisance only. Inhalation may aggravate those with pre-existing conditions.
Ingestion	Non-hazardous food product. May cause an allergic response with sensitive individuals.
Eye Contact	Can cause discomfort.
Skin Contact	In certain individuals subject to Malady, dermatitis may occur and hence protective gloves would be advisable. The material is classified as non-toxic but as dust nuisance only. It is not a corrosive.
Toxicological Information	Not available.
Occupational exposure limits	None available.
Emergency first aid procedures	
Ingestion	Non-toxic – dust masks should be worn.
Eye Contact	In the event of eye contact irrigate with water for at least 15 minutes. Exposure may result in mild irritation. Seek medical attention if symptoms persist.
Skin Contact	Wash contacts areas with soap and water. Get medical attention promptly if symptoms occur.
Inhalation	Remove the individual to fresh air. Seek medical attention if symptoms persist.
Physical properties	
Physical state	Solid-Meal or pellets.
Appearance	Light brown textured meal/ pellets.
Odor	No odour.
Flammability limits	Not known.
Fire & Explosion hazard	
Flammability	BZ 2- Catches fire briefly and extinguishes rapidly.
Flash Point	Not known.
Extinguishing media	Foam, dry chemical and carbon dioxide.
Explosion Class	ST 2
Special firefighting procedures & precautions	
<p>Wheat feed tends to self- heat, ventilation is important. Combustible when subjected to heat. Suitable extinguishing agents are dry agent, carbon dioxide and foam. Fire fighters should use self-contained breathing apparatus to avoid exposure to smoke and fumes. Adequate extraction facilities should be provided in all areas subject to dust. Water must not be used as increases the potential for heating and self-combustion</p>	
Reactivity	
Stability	Stable.
Hazardous Polymerization	Not known.
Materials to Avoid	Strong oxidizing agents, moisture and heat sources.
Hazardous decomposition products	Combustion produces CO ₂ , CO & thick smoke.
Personal protection / Exposure control	
Respiratory Protection	Always ensure the work area has adequate ventilation. In case of dust formation, wear appropriate respiratory protective equipment determined and fitted by an expert. Dust masks should be worn.
Skin protection	Gloves and overalls should be worn when handling.
Eye Protection	Always wear approved safety glasses when working. Full face protective shields can be worn to avoid contact with face. Wash stations should be provided.
Footwear	Appropriate footwear as specified by workplace requirements.
Environmental Protection	
Environmental precautions	Avoid discharge into sewage systems, water courses or onto the ground. Avoid excessive dust emissions.
Spill or leak precautions	Clean up spilled material using broom or other measure.
