Product Data Sheet – Animal Feeds

Supplier		
Cefetra Ltd		
The Lightyear Building		
Glasgow Airport Business Park		
Marchburn Drive		
PA3 2SJ		
Scotland		
0141 445 5721		
Product Specifications		
	Rye Grain	
Trading Name	Rye Grain, Rye Image- Typical Image of Rye Grain **	
	inage Typical inage of Type Grain	
9	**(product may vary in appearance depending on suppliers)	
Product Description		
	utilised in animal feeding, including:	
	Rye bran – a by-product of rye milling	
	 Rye distillers' grains – by-products of whisky and ethanol production 	
	These by-products offer additional nutritional resources in various animal feed formulations.	
Specification*	Spec weight min 60 kg/hl	
	Moisture max 15%	
	Admix max 2%	
	Ergot max 0.05% (*Values are not contractual)	
General Use	Rye grain can be used for Distilling in Alcohol production	
Packaging & Transport	Bulk	
Labelling	According to EU legislation 767/2009	
Storage	Storage of Rye should be in a dry, cool and ventilated area.	
Legal Demands	The product complies with all applicable legislation. Most important elements are:	
- 0	Animal Feed Legislation	
	Directive 2002/32/EG on undesirable substances in animal feed.	
	Regulation 396/2005 on maximum residue levels of pesticides in or on food or feed	
	Regulation (EC) No. 183/2005 concerning animal feed hygiene	
	Commission Recommendation- EC 2006/576/EC	
	Where applicable The Animal Feed (Amendment) (EU Exit) Regulations Statutory	
	Instruments (Scotland, England, Wales and Northern Ireland)	
	Where applicable The Feed (Sampling and Analysis and Specified Undesirable substances)	
	Regulations 2010. (SI for Scotland 354, Northern Ireland 323, Wales 2287 & England 2280)	
Undesirable	The maximum allowable contents of undesirable substances in feedstuff are established in	
substances	accordance with the following regulations and standards:	
	Directive 2002/32/EC on undesirable substances in animal feed	
	GMP+ FSA, Appendix 1 – Product standards, including residue limits, recalculated to a	
	moisture content of 12%	
	Compliance with these standards ensures feed safety and quality.	
	Specific analysis and standard tolerances	
Salmonella	Absent in 25g	

R7-04A

Product Data Sheet – Animal Feeds

Appearance	Pale colour, typical appearance of Rye.	
Country of origin	EU origin	
Country or origin	Health Information	
Inhalation	May cause lung congestion if inhaled.	
Ingestion	Non-hazardous food product. May cause an allergic response with sensitive individuals.	
Eye Contact	Can cause discomfort.	
Skin Contact	In certain individuals subject to Malady, dermatitis may occur, and hence protective gloves would	
JAIII COIII.act	be advisable. The material is classified as non-toxic but as dust nuisance only. It is not a corrosive.	
Toxicological	Rye is non-toxic and biodegradable.	
Information	Trye is from come and stodegraduste.	
Occupational	None available.	
exposure limits		
	Emergency first aid procedures	
Ingestion	Do not induce vomiting. Give person water to drink. If gastro-intestinal symptoms develop seek	
	medical help. Non-toxic – dust masks should be worn.	
Eye Contact	In the event of eye contact irrigate with water for at least 15 minutes. Exposure may result in mild	
,	irritation. Seek medical attention if symptoms persist.	
Skin Contact	Wash effected area with soap and water. Seek medical attention if irritation develops.	
Inhalation	Classed as a dust nuisance however, If breathing difficulties occur move to a well-ventilated area.	
	If breathing problems are still occurring, please seek medical help – dust masks should be worn.	
	Seek medical attention if required.	
Physical properties		
Physical state	Solid	
Appearance	Pale colour, typical appearance of Rye.	
Odour	Rye have a slight pleasant odour.	
Flammability limits	Excessively high moisture content can lead to self-heating as a result of increased respiratory	
	activity. In clusters of overly moist rye within a cargo, localized heating occurs, causing the grains	
	at the boundary layers to become damp or "sweat". This condition can propagate, spreading the	
	heating and moisture to other parts of the cargo.	
	Such clusters often form in freshly harvested rye that has not undergone sufficient post-ripening	
	or when excessively damp material is loaded.	
Flammability	Fire & Explosion hazard Not flammable	
Ignition temp	490°C	
Extinguishing media	Foam, dry chemical, carbon dioxide	
Explosion class	St 1	
Explosion class	Special firefighting procedures & precautions	
The material is combi	ustible when exposed to extreme heat. Suitable extinguishing agents include dry chemical agents,	
	and foam. Firefighters should wear self-contained breathing apparatus (SCBA) to prevent exposure	
to smoke and toxic fu		
	tion systems must be provided in all areas where dust is present to reduce fire risk.	
	Reactivity	
Stability	Stable	
Material to avoid	Strong oxidizing agents; Direct sunlight, extremely low and high temperatures and protect from	
	moisture.	
Hazardous	Combustion produces CO ₂ & CO	
decomposition		
products		
	Personal protection / Exposure control	
Respiratory	Always ensure the work area has adequate ventilation. In case of dust formation, wear	
Protection	appropriate respiratory protective equipment determined and fitted by an expert. dust masks	
	should be worn.	
Skin protection	Gloves and overalls should be worn when handling.	
Eye Protection	Always wear approved safety glasses when working. Full face protective shields can be worn to	
	avoid contact with face. Wash stations should be provided.	
Footwear	Appropriate footwear as specified by workplace requirements.	
Environmental Protection		

R7-04A

Product Data Sheet – Animal Feeds

Environmental	Avoid excessive dust emissions.	
precautions		
Spill or leak	Its high content of sugars causes high biological oxygen demand, and the release of large	
precautions	quantities into waterways or sewers should be avoided. Spillages should be cleared up	
	immediately and disposed.	
Waste disposal	Dispose spilled or contaminated material to landfill. Do not release into drains or other	
	measures.	
This is for information purposes only and is not contractual
