

Supplier	
Cefetra Ltd The Lightyear Building Glasgow Airport Business Park Marchburn Drive PA3 2SJ Scotland 0141 445 5721	
Product Specifications	
Feed Stuff	Wheat Distillers Dark Grains
Trading Name	Wheat Distillers Dark Grains, Wheat distillers dried grains, Wheat Distillers, DDG's
Image- Typical Image of Vital Wheat Distiller Pellets **	
	
**(product may vary in appearance depending on suppliers)	
Product Description	Wheat distillers grain is the main by-product of the distillation of alcohol from wheat grain. Product of alcohol distilling obtained by drying solid residues of fermented grains (wheat).
Specification*	Moisture- 14% max Profat- ~35-40% Protein- ~30% Oil- ~6% (These Values are not contractual)
General Use	Used as a constituent of animal feed. DDG's are a good source of energy and by-pass protein for ruminants
Packaging & Transport	Bulk
Labelling	According to EU legislation 767/2009
Storage	Wheat Distillers should be stored at ambient/ cool temperatures in dry flat stores
Legal Demands	The product complies with all applicable legislation. Most important elements are: <ul style="list-style-type: none"> <li>• Animal Feed Legislation</li> <li>• Directive 2002/32/EG on undesirable substances in animal feed.</li> <li>• Regulation 396/2005 on maximum residue levels of pesticides in or on food or feed</li> <li>• Regulation (EC) No. 183/2005 concerning animal feed hygiene</li> <li>• Commission Recommendation- EC 2006/576/EC</li> <li>• Where applicable The Animal Feed (Amendment) (EU Exit) Regulations Statutory Instruments (Scotland, England, Wales and Northern Ireland)</li> <li>• Where applicable The Feed (Sampling and Analysis and Specified Undesirable substances) Regulations 2010. (SI for Scotland 354, Northern Ireland 323, Wales 2287 &amp; England 2280)</li> </ul>
Undesirable substances	The maximum allowable concentrations of undesirable substances in feed materials are established in accordance with the following regulations and standards: <ul style="list-style-type: none"> <li>• Directive 2002/32/EC on undesirable substances in animal feed;</li> <li>• GMP+FSA Appendix 1, which outlines product standards, including residue limits;</li> <li>• Regulation (EC) No 396/2005 on maximum residue levels of pesticides in or on food and feed..</li> </ul>
Specific analysis and standard tolerances	
Salmonella	Absent in 25g
Appearance	Dark brown/golden textured meal/ pellets
Country of origin	EU
Health Information	

# Cefetra

R7-04A

## Product Data Sheet – Animal Feeds

Inhalation	Classified as a dust nuisance only. Inhalation may aggravate those with pre-existing conditions.
Ingestion	Non-hazardous food product. May cause an allergic response with sensitive individuals.
Eye Contact	Can cause discomfort.
Skin Contact	In certain individuals subject to Malady, dermatitis may occur and hence protective gloves would be advisable. The material is classified as non-toxic but as dust nuisance only. It is not a corrosive.
Toxicological Information	Not available.
Occupational exposure limits	None available.
<b>Emergency first aid procedures</b>	
Ingestion	Non-toxic – dust masks should be worn.
Eye Contact	In the event of eye contact irrigate with water for at least 15 minutes. Exposure may result in mild irritation. Seek medical attention if symptoms persist.
Skin Contact	Wash contacts areas with soap and water. Get medical attention promptly if symptoms occur
Inhalation	Remove the individual to fresh air. Seek medical attention if symptoms persist.
<b>Physical properties</b>	
Physical state	Solid
Appearance	Dark brown/golden textured meal/ pellets.
Odor	No odor
Flammability limits	Not known
<b>Fire &amp; Explosion hazard</b>	
Flammability	BZ 2- Catches fire briefly and extinguishes rapidly.
Flash Point	>60°C.
Extinguishing media	Foam, dry chemical, carbon dioxide and water spray.
Explosion Class	ST 1
<b>Special firefighting procedures &amp; precautions</b>	
<p>This material is combustible when exposed to heat. Suitable extinguishing agents include dry chemical agents, carbon dioxide, and foam. Firefighters should wear self-contained breathing apparatus to prevent exposure to smoke and hazardous fumes.</p> <p>Adequate ventilation and extraction systems must be installed in all areas where dust accumulation may occur.</p> <p><b>Water must not be used as an extinguishing agent, as it can increase the risk of heating and spontaneous combustion</b></p>	
<b>Reactivity</b>	
Stability	Stable
Hazardous Polymerization	Not known.
Materials to Avoid	Strong oxidizing agents, moisture and heat sources.
Hazardous decomposition products	Combustion produces CO <sub>2</sub> , CO & thick smoke.
<b>Personal protection / Exposure control</b>	
Respiratory Protection	Always ensure the work area has adequate ventilation. In case of dust formation, wear appropriate respiratory protective equipment determined and fitted by an expert. dust masks should be worn.
Skin protection	Gloves and overalls should be worn when handling.
Eye Protection	Always wear approved safety glasses when working. Full face protective shields can be worn to avoid contact with face. Wash stations should be provided.
Footwear	Appropriate footwear as specified by workplace requirements.
<b>Environmental Protection</b>	
Environmental precautions	Avoid discharge into sewage systems, water courses or onto the ground. Avoid excessive dust emissions.
Spill or leak precautions	Clean up spilled material using broom or other measure.
Waste disposal	Dispose spilled or contaminated material to landfill. Do not release into drains or other measures.
<b>This is for information purposes only and is not contractual</b>
